ABOUT

My name is Lara, I'm in my "rollin 20's". At the time, I'm working at the Disney Store Portugal, (a "happy place" in the world) and studying at Etic., because the future "starts right here and right now", in order to be a designer, "I won't throw away my shot". I'm a young designer, "I know that I'm naive", who had the privilege to work with some well known persons, in the area, to have had some works exhibited (Sagres, Yorn, El Corte Inglés, Natura). Being a designer, the things I love the most are, "adding a few new paintings to my gallery", making illustrations, and doing photomontage.
